ABOUT ASCENSION ALCHEMISTS

Ascension Alchemists is a Divine Ministry led by Rev. Honi Borden and Michael Abramson, devoted to helping humanity embody its Eternal Kryst Light through the path of Ascension Embodiment. Their work is grounded in direct communion with God Almighty and guided by a sacred calling to purify the physical, emotional, and mental bodies so the Divine Self can fully express through each individual.

They serve spiritually awakened men and women who are ready to live from their I AM Presence and walk in Divine Responsibility. Their transformational work transcends religious dogma while honoring all paths that lead to the One Truth. Through their Private Ministry Association, courses, mentorships, healing technologies, retreats, and podcast, they lead others into grounded, joyful, prosperous lives rooted in God's Light.

"We don't teach theory. We teach from living it. The Second Coming is not an external event—it's an inner resurrection of the Christ Light within."
